

WORLD WETLANDS DAY

World Wetlands Day was observed by the students of Std.3 on 2nd Feb2017. Some students had the unique opportunity of participating in the mangrove plantation on this special day. There was a presentation on the wetlands followed by a short film. These resources were courtesy the United Nations. Thereafter, a quiz was conducted. The students enjoyed a sing-along session with songs on the wetlands. Art and craft activities were held during the day. The session concluded with an inspiring pledge in which the students took a vow to be the Wetlands Warriors and always remain in the frontline protecting the wetlands. This event has the honor of being featured on the UN website.

Taking a pledge to save our wetlands

Children colouring the logo in their class

Showcasing their artistic skills

Children from grade 3 planting mangrove saplings on this day.

A powerpoint presentation on Wetlands
