

# Van Mahotsav

Plant more trees..

On the occasion of Van Mahotsav, the children of STD 1 had an interesting storytelling session with the famous author and nature lover Ms. Katie Bagli. She read out a story from the book co-authored by her, "Choddoshak". The Choddoshak is a customary meal made out of chodo (fourteen) shak (plants) on Bhoot Chaturdashi.

**Traditionally these wild plants were grown by people in their home gardens. The title of the story she narrated was “ The Weed With The Fish Like Eyes – Matsyakshi”. The story was about how the weed, Matsyakshi helped in healing the old lady, Phulo.**

**Aafreen teacher introduced the session with a tree that spoke of its importance in the world.**

**The Principal also addressed the gathering and thanked Ms. Katie for the lovely and informative storytelling session.**
